

Fire Suppression Services Corp. & Ward Piping Inc.

have a goal to provide our customers with the highest level of services possible.

Quality and Pride are some of the characteristics that seem to be missing with many service companies today.

Fire Suppression Services and Ward Piping would like to change that for our customers by encouraging feedback from our clients.

We don't want you to have to worry about your fire protection systems. Leave that up to FSS and Ward. This way you will have time to devote to other things.
